ADI Part 3 · Meeting traffic · Lesson script

Goodmayes practice route · 31 steps · pupil: Jamil · matches the Grade A MP3 (version 2)

YOU = what you say (bold). *Jamil:* = expected reply. ▸ = what happens on the road. Grey bars = route step and direction.

At the test centre · Goal and risk · under 3 minutes

YOU **Good morning, Jamil. How are you feeling today?**

Jamil: Good morning. A bit nervous, to be honest.

YOU **That's normal. The examiner is only watching how I teach, not your driving. So just drive the way you normally do.**

Jamil: Okay. That helps.

YOU **Last lesson we did junctions. How do you feel about them now?**

Jamil: Much better. I'm happy with junctions.

YOU **Great. What would you like to work on today?**

Jamil: Roads with cars parked on both sides. I see the oncoming cars too late, and I can't always find a safe gap.

YOU **So, spotting oncoming cars early, and choosing a safe place to wait. Out of ten, how confident are you with that now?**

Jamil: About a five.

YOU **And where would you like to be by the end?**

Jamil: A seven or an eight.

YOU **Let's aim for that. The route has lots of narrow roads with parked cars, so it's perfect practice. First, I'll talk you through. Then I'll ask questions and you decide. At the end, I'll just give directions. Is that okay?**

Jamil: Yes, that sounds good.

YOU **Now, safety. You're driving, so you're responsible for the car. But I'm responsible for safety too, so we share it. If I see a risk, I'll help you with words first. If I really need to, I'll use the dual controls or the steering. And if you're ever unsure, tell me early. Is that clear?**

Jamil: Yes. I'll tell you if I'm not sure.

YOU **When you're ready, do your checks, and move off when it's safe. Then left straight away into Kildowan Road.**

Stage 1 · Guide

Steps 1–12 · talk through, prompt early

1 Test centre — Start

Jamil: Mirrors, signal, blind spot. Moving off.

2 Kildowan Road — Left straight away

YOU **Nice smooth move off. At the end of the road, turn left into Granton Road.**

3 Granton Road — End of road, left

YOU **Granton Road is a great example. Parked cars on both sides. Look right to the end of the road. What can you see?**

Jamil: Parked cars on our left. And a car coming towards us.

YOU **Good. The parked cars are on our side, so who normally gives way?**

Jamil: We do.

YOU **That's right. So, mirror, slow down early, and pick a gap on the left. Stop about a car's length back from the parked car, so you can see past it and pull out easily.**

Jamil: Okay. Waiting here.

YOU **Perfect spot. He's through. Mirror, right blind spot, and away. When we pass parked cars, how much space do we leave?**

Jamil: About a door's width?

YOU **Exactly, about a metre, in case a door opens. If you can't give a metre, slow right down. Brilliant. You saw that car early and chose a good gap.**

YOU **At the end of the road, left into Green Lane.**

4 Green Lane — End of road, left

YOU **The roads are wet today. What does that mean for our stopping distance?**

Jamil: It's longer. So more space.

YOU **That's right. The Highway Code says at least double. So keep at least a four second gap, and brake early and gently. At the traffic lights ahead, we'll turn right into Goodmayes Lane. Get into position early.**

Jamil: Mirrors, signal right, move towards the centre.

YOU **Good position. Wait for a safe gap in the oncoming traffic.**

5 Goodmayes Lane — Traffic lights, right

YOU **Goodmayes Lane has buses and parked cars. There are two roundabouts. Straight on at both, then take the first right after the second one, into Trenance Gardens.**

Jamil: Straight on, straight on, then first right.

YOU **That's it. First roundabout. Look right. Clear?**

Jamil: Clear. Straight on.

YOU **Good. Second roundabout. Same again. Then mirrors and signal for the first right.**

6 Trenance Gardens — 2nd roundabout, then 1st right

YOU **Trenance Gardens has a bend coming up, with parked cars. Think about your speed.**

PULL UP 1

▸ Jamil goes into the bend too fast, and drifts towards the middle of the road.

YOU **Jamil, slow down. Come back to the left.**

Jamil: Okay. Sorry.

YOU **Good. When it's safe, pull up on the left for me.**

YOU **Jamil, why do you think I asked you to pull up?**

Jamil: I was too fast on the bend and moved to the right.

YOU **Yes. What could have happened?**

Jamil: If a car came round the bend, we could have crashed.

YOU **Exactly, with parked cars there was nowhere to go. So what will you do next time?**

Jamil: Slow down before the bend, look where the road goes, and keep left.

YOU **Perfect. Let's change the plan a little. We'll come back to this same bend in a few minutes so you can try again. Okay?**

Jamil: Yes, please.

YOU **When it's safe, move off. At the end of the road, left into Westrow Gardens.**

7 Westrow Gardens — End of road, left

YOU **Westrow Gardens. Parked cars on both sides. Keep looking through the gaps.**

Jamil: A van is coming. The parked cars are on his side, so he should wait. But I'll slow down in case.

YOU **Great thinking. Never assume. He's waiting for us. Go steady.**

YOU **At the end of the road, left into Levett Gardens.**

8 Levett Gardens — End of road, left

YOU **What speed feels right for a road this narrow?**

Jamil: About fifteen. So I can stop if something comes.

YOU **Good answer. At the end of the road, left into Goodmayes Lane.**

9 Goodmayes Lane — End of road, left

YOU **Just after the lights, left into Trenance Gardens. The same bend as before.**

Jamil: I'm ready this time.

10 Trenance Gardens (2nd time) — Just after the lights, left

Jamil: Slowing down before it. Looking round. Keeping left.

YOU **Well done, Jamil. That time you slowed down before the bend and stayed on the left. How did that feel?**

Jamil: Much more in control.

YOU **At the end of the road, left into Westrow Gardens again.**

11 Westrow Gardens — End of road, left

YOU **This time, tell me what you see before I ask.**

Jamil: Car coming. Parked cars on our side. I'll wait in that gap, a car's length back.

YOU **Brilliant, that's exactly it. At the end of the road, right into Levett Gardens.**

12 Levett Gardens — End of road, right

Jamil: Turning right. Checking both ways.

Stage 2 · Prompt

Steps 13–22 · fewer prompts, more questions, let Jamil decide

YOU **You're getting this, Jamil, so I'll step back now. I'll ask questions, and you make the decisions. Take the first right, into Gyllyngdune Gardens.**

13 Gyllyngdune Gardens — 1st right

YOU **What's your plan for this road?**

Jamil: Parked cars both sides. Look through the gaps, and find my waiting places early.

Jamil: Car coming. It's on my side, so I'll wait here.

YOU **Why did you pick that gap?**

Jamil: It's big enough, and I can still see past the parked car.

YOU **Great reasoning. At the end of the road, right into Breamore Road, then immediately left into Oakwood Gardens.**

14 Breamore Road — End of road, right

Jamil: Right, then immediately left.

15 Oakwood Gardens — Immediately left

YOU **At the crossroads at the end, we'll turn left into Green Lane. What do you need to think about at a crossroads?**

Jamil: Traffic from all directions, and cars going straight across.

YOU **That's it.**

16 Green Lane — Crossroads, left

YOU **Green Lane. After the second set of lights, right into New Road.**

Jamil: Can I ask something? If the lights turn amber as I reach them, should I stop?

YOU **Good question. Amber means stop, unless you've already crossed the stop line, or you're so close that stopping might cause a collision. So plan your speed as you approach, then you're ready either way.**

Jamil: Okay, that makes sense.

17 New Road — After the 2nd lights, right

YOU **New Road. At the end, at the lights, right into High Road.**

18 High Road — End of road, lights, right

YOU **High Road is busy. Buses, shops, people crossing. What could happen here?**

Jamil: People could step out between parked cars. Buses could pull out.

YOU **Good. After the first lights, left into Cameron Road, then left again.**

19 Cameron Road — After 1st lights, left, then left again

YOU **At the roundabout at the end, take the second exit, to the right, into Aldborough Road South.**

Jamil: Second exit. Signal right, then left after the first exit.

YOU **Exactly.**

20 Aldborough Road South — Roundabout, 2nd exit (right)

YOU **Aldborough Road South. We want the fifth left, into Wards Road.**

Jamil: One. Two. Three. Four. Fifth left now.

21 Wards Road — 5th left

YOU **Wards Road. Then the second left, into Mafeking Avenue.**

22 Mafeking Avenue — 2nd left

YOU **Take the first left into Ladysmith Avenue, then pull up on the left when it's safe.**

23 Ladysmith Avenue — 1st left, pull up

PULL UP 2 · Hand over to independent driving. Under one minute

YOU **Lovely. How do you feel it's going?**

Jamil: Good. I'm seeing the cars much earlier.

YOU **I agree. Out of ten, where are you now?**

Jamil: About a seven.

YOU **Great progress. For the last part, I'll only give directions. All the meeting traffic decisions are yours. I'll only speak if I need to for safety. Okay?**

Jamil: Yes. I want to try.

Stage 3 · Independent Steps 23–31 · directions only, stay quiet

YOU **When you're ready, move off. At the end of the road, right into Aldborough Road South.**

▸ A delivery van is parked on Jamil's side, and a cyclist is coming. Jamil waits behind the van and gives the cyclist plenty of room.

24 Aldborough Road South — End of road, right

YOU **At the roundabout, first exit, into Cameron Road.**

25 Cameron Road — Roundabout, 1st exit

YOU **At the traffic lights, right into High Road.**

26 High Road — Traffic lights, right

YOU **After the next lights, immediate left into Seven Kings Road.**

27 Seven Kings Road — After next lights, immediate left

YOU **First left, into Felbrigge Road.**

28 Felbrigge Road — 1st left

▸ Jamil meets two cars in a row, and waits in a safe gap without any help.

YOU **At the end of the road, turn left into Granton Road.**

29 Granton Road — End of road, left

YOU **Next right, into Kildowan Road.**

30 Kildowan Road — Next right

YOU **And pull up on the left, back at the test centre, when it's safe.**

31 Test centre — Finish

PULL UP 3 · The recap. The pupil reflects first. Under 3 minutes.

YOU **Lovely. Switch the engine off. How do you think today went?**

Jamil: Well. At the start I saw cars late. By the end, I saw them much earlier.

YOU **What helped you see them earlier?**

Jamil: Looking further ahead, and through the gaps between parked cars.

YOU **And what did you learn on the Trenance Gardens bend?**

Jamil: Slow down before the bend, and keep left.

YOU **You started at five out of ten. Where are you now?**

Jamil: About an eight.

YOU **I agree. In the last part, you made every decision yourself, and you gave that cyclist plenty of room. Keep working on your speed before bends. What would you like to do next lesson?**

Jamil: Bends, to practise my speed.

YOU **Perfect, next lesson, bends. Any questions about today?**

Jamil: No. Thank you.

YOU **Really well done today, Jamil.**

Quick checklist

Timing (GOV.UK): lesson about 45 min, pupil drives about 40. Start under 3 min · pull ups under 1 min · recap under 3 min.

1. The examiner watches your teaching. 2. Last lesson, self rating out of 10, clear goal. 3. Agree the help: guide, prompt, independent. 4. Shared risk, use the word **intervene**, "tell me early if unsure". 5. Teach on real roads: car length when waiting, door width when passing. 6. Deal with hazards first, then the next direction. 7. Specific praise. 8. After an incident: what happened, what could have happened, what next time, then repeat. 9. Stay quiet in the independent stage. 10. Recap: pupil reflects first, new score, next lesson.
